## About The MGCU

Mahatma Gandhi Central University (MGCU) in Motihari, Bihar was established in 2016. Named after Mahatma Gandhi, the university aims to promote higher education and research in various fields, embodying Gandhian principles of peace, equality, and social justice. It offers undergraduate, postgraduate, and doctoral programs across disciplines such as humanities, social sciences, and natural sciences. The university strives to nurture critical thinking and holistic development among its students while fostering a spirit of service to society.

## About The Department

Department of Mathematics, MGCU is committed to upholding academic excellence in the field of Mathematics with total strength of 4 Assistant Professors having expertise in various mathematical domains who are contributing to the intellectual and socio-economic advancement of the region as well as the nation along with 10 young PhD scholars. As per now, the department offers post-graduation and doctoral programme in Mathematics.

## How to reach Motihari

- The nearest railway station is Bapudham Motihari. Also, delegates may come through Muzaffarpur railway station which is 80 km far from Motihari.
- The nearest airport is at Patna and Darbhanga around 160 km. Then come to the destination by car.

## About The Conference

The conference aims to serve as a platform for researchers, scholars, and practitioners from around the world to exchange ideas and discuss recent developments in various branches of mathematics. Attendees have the opportunity to present the latest research findings, engage in discussions on emerging trends and collaborate on potential interdisciplinary projects. Topics covered may include pure mathematics, applied mathematics, computational mathematics, mathematical physics and interdisciplinary applications of mathematics in field such as engineering, finance, biology and computer science. Moreover, it will provide an opportunity to enhance collaboration among researchers not only from state but also from various part of the globe. ICAMS-24 features keynote presentations from renowned experts, paper presentations and knowledge sharing among the participants. Overall, the main emphasis of the conference is to promote advancements in mathematical sciences and facilitate cross-disciplinary collaboration to address new avenues for innovation and development.
